#### Harvest 2007:

**Congratulations to All!** - Harvest is over in all states. There was production in WI and adjustments to production figures in a number of the districts. The figures set out in the table reflect these changes.

The production figures posted during the season have included diversion activity reported through the season. We are awaiting final confirmation of diversion activities from around the country. Now that all plants are closed, the confirmation should be received soon and will be posted as soon as possible.

Please note that random row diversions depend upon the handlers' production reports due later. However, we did contact handlers to get production information to provide best estimates.

**WI** - Finished production this week. We are still awaiting additional diversion information.
