Tart Cherry Harvest Has Begun!

WC MI - moving along into harvest. Fruit is good but showing some quality issues related to recent storms and wind.

SW MI - Good quality fruit. A little on the small side in some areas.

PA - Reporting a nice cherry crop. Expect to finish a little below estimate this week.

On July 6, 2018, the CIAB set the preliminary restriction at 31%. Growers should contact their processor(s) directly about plans for restriction compliance.
