#### All districts underway!

**NW MI** - Harvest started, but only a small volume harvested.

**WC MI** - Another large week. Quality still good. Thoughts are that it will pick long of the estimate.

**SW MI** - At the tail end of the harvest. Quality held up even with lots of rain. A little more expected in Wk 4.

**OR** - Production slowing down. A number of handlers finished.

**NY** - Weekly production increased quite a bit. Quality good.

**PA** - Huge production for PA. 2x estimate. Quality good.

**UT** - A strong week. Quality remains good; fruit size good.

**WA** - Harvest going strong. Quality is good here, as well.

**WI** - Harvest just begun. Too little to project results.
