Harvest 2005:

SW MI Done. Quality stayed good throughout. Down from est.

WC MI Quality still good. Harvest will continue this week.

NW MI Quality very good to excellent. Some suggest production will be greater than estimate; others not so sure. Week 5 should be heaviest for the year. Harvest continues this week and next.

OR Done. Minimal production. Worst season in years.

PA Done. Quality was good.

UT Quality good. Probably more tonnage than estimate.

WI Quality good. Volume may be down; recent rains will help.

WA Quality very good. Picking light of estimate.
