Total	82.7	175.0	2.7	177.7	294	264

Harvest 2007:

PA - They have finished receiving cherries.

SW MI - Also done. No additional diversions last week.

WC MI - The cherries remained very good throughout. Mostly over except for a small amount.

NW MI - A very heavy week of production in NW MI. Quality is still quite good. Handlers are expecting another good week of production. Some wind whip is showing up. Thoughts are that NW MI will not attain the estimate.

NY Quality quite good. Cherries smaller. Will be near estimate. Cherries smaller.

UT - Picking light of estimate. Very hot. Will be done mid-week of this week.

WA - Picking lighter than estimated. Very hot. Quality okay. Some already done. Others done by mid-week.

WI - They are into the season. Good quality.
