Harvest 2005:

NW MI Quality very good to excellent. Harvest will continue this week.

UT Quality good. Still picking. Will be long of estimate.

WI Quality very good. Volume may be up slightly from estimate. Still harvesting.

WA Picking light of estimate.

Quality, in general: Virtually every processor has indicated that the quality of this year's pack is very good. In MI, the processors have indicated that this year's pack is either "as good as they can remember" or "one of the best years". Yields should be reflect this high quality fruit.
