**NW MI** Some processors finished with this week. Others will go through Week 6 and, maybe, beyond. Quality presents challenges.

**WC MI** Most processing complete. More diversion activity to be posted. **SW MI** Just a smattering of fruit. **NY** Quality acceptable, but not great. **PA** Done. **OR** Harvest continues. Quality quite good. **WA** Still high temperatures, but quality is holding up. Likely to be somewhat above estimate. **UT** Volumes about at estimate. High temperatures, but fruit okay. **WI** Challenging year with volume and weather.

**General** - Our printer had trouble with last week's mailing. Our apologies if you did not get a postcard. "Diverted fruit" = activities YTD; Random row info. not available and not posted.
