Harvest 2005:

NW MI Quality has been very good throughout. Harvest will continue in week 7.

UT Quality good. They will have tonnage in Week 7 although relatively small.

WI Finished. Quality quite good. Exceeded estimate.

WA Done. Picked light of estimate.

Quantity: Currently at 107 % of estimate.

Quality, in general: Various people have indicated that this may be one of the best quality years ever if not the best quality ever.

The 2005 YTD includes block or tank diversions. Random row diversions cannot yet be calculated. The number of RR diversions have been minimal.
