NW MI - Wk 7 is the last week of full production. There will be some production reported in Wk 8. Given the present figures, it is not likely that NW MI will reach its estimate. Some noted that cherries were smaller than usual.

WC MI - Very light production. Total very close to estimate.

SW MI - Finished. 10% above estimate.

NY - Finished. 7.1% above estimate.

OR - Finished. 50% above estimate.

PA - Finished. Crop small, but well above estimate.

UT - Finished. 3% below estimate.

WA - Harvest complete. 3.3% above estimate.

WI - Finished. 20% above estimate.

Please note: there may be corrections to handlers' reports.
