#### Harvest 2007:

**Congratulations to All!** - Harvest is over. This is an update on production and diversion activities.

As happened some last week, we have received corrections to production information from some handlers . Also, there was an adjustment of production from WA to WI that had been improperly posted by the CIAB.

The in-orchard diversion information has been adjusted to reflect additional information provided to the CIAB by its field staff. There may be a few more changes to this area, but any such changes should not be substantial.
