NW Almost done; expect very small production in week 7.

WA Still harvesting; some production in week 7

All other District Done. Minor production adjustment anticipated.

**USDA Purchase** - On August 2 the USDA announced an entitlement purchase of 1.2 million pounds RPE. No release from reserves. Further purchases will be sought.

**Diversion** - There will be some diversion activity to report in week 7. All diversion certificates should be issued in the next few weeks unless you did random row. Random row certificates are calculated on the amount of fruit delivered to the processor. Certificates cannot be issued until the processor submits its Form 2 which is due Sept. 15.
