Total	3.5	248.1	14.9	263	256	267

CONGRATULATIONS! EVERYONE has finished this year's harvest.

Michigan producers and processors cite this as one of the most difficult and challenging crops they can recall. Many of the other areas fought heat, but the quality was not quite as difficult a problem.

WI will not be regulated. Their actual reported production level was 4,349,749 pounds. Their 50% exemption level is 4.4 million.

Diversions UT diverted 14.5%; SW MI diverted 11.7%; WC MI was at 5.3%; NW MI was at 3.6%. More diversions will be posted and reported as info. is received.
